Flying Saucer	ds/starts	AF 21-27C 70-80F		April 24	May24+			50-55	

AF -- after frost WS - workable soil

*last frost date in my area is May 9-11 (<http://www.almanac.com/content/frost-chart-canada>,

<http://www.veseys.com/ca/en/learn/reference/frost/canada>) however we usually consider May 24 weekend a safe plant out date
